

Leasing under USGAAP

AIM OF THE TRAINING

The aim of the training is to provide a practical understanding of lease accounting under US GAAP, including key differences versus IFRS, and to develop the ability to correctly classify, measure, and account for leases in both lessee and lessor scenarios.

TRAINING PROGRAM

1. Introduction and course objectives

- What is a lease – definition USGAAP v IFRS
- Types of lease, Operating v Capital (USGAAP) , Operating v Finance (IFRS)
- Special situations – leases of land and buildings and leases including intangible assets such as software

2. Lessee accounting under USGAAP

- Reporting Capital leases and operating leases – full worked example including comparison with IFRS
- Dealing with variable lease payments such as future payments adjusted for inflation
- Disposal and modification of leases

3. Lessor accounting under USGAAP

- Treatment of operating and capital leases
- Accounting for a sub-lease granted from a head lease

BENEFITS

- Gain clear understanding of US GAAP vs IFRS lease accounting differences
- Build practical skills in accounting for lessee and lessor lease transactions
- Learn how to apply lease accounting rules in complex real-life scenarios (modifications, variable payments, sub-leases)
